

The CAC needs YOU!

Attending a CAC meeting is a great opportunity to gain knowledge and to have your voice be heard!

Here are some ways you can help support the CAC and your child's education:

- Attend a CAC meeting.
- Increase community participation by inviting another parent or educator to the CAC meeting.
- Offer to represent your school district.

Your opinions matter!

The CAC wants to hear both the successes and challenges of parents of students with special needs. It is important for CAC to know important issues, training topics of interest, and how the CAC can support your child to be successful in school.

Please contact us with your thoughts and ideas, and be sure to include your contact information.

Community Advisory Committee

The Community Advisory Committee (CAC) works with the South East Special Education Local Plan Area (SE SELPA) to serve as a resource for parents of children with special needs.

The CAC serves in an advisory capacity to the SE SELPA regarding special education and related services provided to students with special needs.

The SE SELPA is a consortium of 11 school districts and the Santa Clara County Office of Education that ensures the availability of a continuum of special education programs and services for individuals with special needs from birth through 22 years of age.

Who Are We?

The CAC primarily consists of district board-appointed representatives who are parents of students with special needs. Other members may include regular and special education teachers, administrators, and community members.

What Do We Do?

The CAC exists to promote community awareness of unique needs of children with special needs as well as programs and services to them and their families.

The CAC's work includes support for parents of children with special needs, monthly evening information sessions, and dissemination of important information through an email distribution list.

Our CAC also coordinates special needs education, training for parents and educators, and special events.

Our Mission

We know being fully informed about available resources within the community is a difficult task for all parents. When your child is in special education, the stress of coping with the myriad complicated procedures and services can be overwhelming. Let us guide you in sorting through the maze of terms, federal and state laws, and services and resources available so that you can plan your child's education.

For additional information, please visit the CAC page on the South East SELPA website located at:
