Dialectical Behavior Therapy Intensive Training™

This course is designed to model basic elements of DBT in an experiential way and to foster team development. It is ideal for those who want to start a full DBT program and are invested in learning DBT to a high standard with the members of their DBT team.

The DBT Intensive Training involves rigorous preparation, training, and homework. Part 1 and Part 2 are both five full days of training. This training is appropriate for DBT teams of clinicians who have started learning DBT methods from self-guided study and introductory workshops.
