Parentally-Placed Student in Private School Proportionate Funding

IDEIA 2004 required that each LEA must spend a proportionate amount of Federal funding on providing special education and related services to parentally-placed private school children with disabilities.

The amount is calculated each year based on December pupil count and a formula provided by the State. Starting 2016-17, districts will have to submit the “Proportionate Share Calculation” worksheet showing the set aside amount. If an LEA has not expended this amount by the end of the fiscal year for which Congress appropriated the funds, the LEA must obligate the remaining funds during a carry-over period of one additional year.

STEP 1: In order to perform an accurate proportionate share calculation, please adhere to the following guidelines and complete the calculation below:

- 1) The LEA where the parentally-placed children with disabilities in private schools is *located* is responsible for child find and providing special education and related services.
- 2) LEAs must use the proportionate share of their IDEA 611 Part B Resource 3310 funds to provide special education and related services to parentally-placed children with disabilities enrolled in private schools and who attend private schools *located* in the LEA. There is no exception for out-of-state parentally-placed children with disabilities attending private schools located in the LEA. Therefore, out-of-state parentally-placed children with disabilities must be included in the group of parentally-placed children with disabilities whose needs are considered in determining which parentally-placed private school children with disabilities will be served and the types and amounts of services to be provided.
- 3) LEAs must spend the entire proportionate share of IDEA 611 Part B Resource 3310 funds on parentally-placed private school children with disabilities, regardless of the availability of state and local funds. In other words, state and local funds can no longer be used as a substitute for the proportionate share of IDEA 611 Part B Resource 3310 funds.

STEP 2: Proportionate Share Calculation of IDEA Funding using the California Special Education Management Information System (CASEMIS) Codes as indicated in the items below:

ITEM	CHILD COUNT
A. Indicate the CASEMIS total child count for Code 10 (IEP) children who are IDEA-eligible children with disabilities with an IEP and enrolled in the district, between the ages of 6 and 21, reported on the December 1, 2016, child count.	
B. Indicate the CASEMIS total child count for Code 20 and/or Code 70 children who are IDEA-eligible parentally-placed children with disabilities, enrolled in elementary or secondary private schools within the district's boundaries, between the ages of 6 and 21, and reported on the December 1, 2016, child count. Include children receiving services and children identified but not receiving services through a Service Plan: Code 20: Individual Service Plan (ISP); or Code 70: Eligible: no IEP, IFSP, or ISP, parentally-placed in private school (student does not need services to be provided using proportionate share or parent declines offer of services to be provided via proportionate share)	
C. Combine Items A and B child count for the total child count of IDEA-eligible children with disabilities with an IEP and enrolled in the district and children who are IDEA-eligible parentally-placed children with disabilities enrolled in elementary or secondary private schools within the district's boundaries, between the ages of 6 and 21.	
D. LEA's 2017-18 IDEA 611 Part B Resource 3310 Award Allocation Amount: \$ _____	

STEP 3: Please complete the formula below by entering the information above that correspond to each blank:

Item B	divided by	Item C	multiplied by	Item D	equals	2017 Total Proportionate Share*
	by		by	\$		\$

*The LEA's 2017 Total Proportionate Share must be reported on the Expenditure Report, Resource 3311, and fully expended by the grant award period ending date of September 30, 2019.

PROPORTIONATE SHARE ASSURANCE

The major provisions regarding children with disabilities enrolled by their parents in private, including religious, elementary, and secondary schools are located in the statute at section 612(a)(10)(A) of the Individuals with Disabilities Education Act (IDEA) and in the regulations at 34 Code of Federal Regulations §§300.130 through 300.144. The IDEA requires that the local educational agency (LEA), after timely and meaningful consultation with both private school representatives and parent representatives, conduct a thorough and complete child find process to determine the number of parentally-placed children with disabilities attending private schools located in the LEA. These requirements also make clear the LEA's obligation to spend a proportionate amount of IDEA Part B funds to provide equitable services to this group of children.

In calculating the proportionate amount of IDEA Part B funds to be provided for parentally-placed private school children with disabilities in the 2017-18 fiscal year, the LEA must use the official December 2016 and June 2017 child count reported in the California Special Education Management Information System (CASEMIS).

In conformance with this requirement, the LEA as identified below has determined the following:

_____ There are no private schools located in the LEA.

_____ There were no parentally-placed children with disabilities attending the private school located in the LEA. This determination was made after a timely and meaningful consultation with both private school representatives and parent representatives of parentally-placed private school children with disabilities and after conducting a thorough and complete child find process to determine the number of parentally-placed children with disabilities attending the private schools located in the LEA.
